TECHNICAL SKILLS

- **Programming languages**: Java, JavaScript (ES6), HTML5, Vanilla CSS
- **Frameworks/Libraries**: React(basics), Tailwind CSS, Bootstrap
- **Tools**: Vs Code Editor, Git, GitHub

ABOUT ME

I am an aspiring frontend web developer with a solid understanding of HTML, CSS, and JavaScript. Eager to contribute technical skills and creativity to a dynamic team and gain hands-on experience in building responsive and visually appealing web interfaces. I am currently a 3rd year student at Uttaranchal University, Dehradun and I am pursuing **Bachelor Of Technology** (B.tech) in **Computer Science** (CS) Branch.

PROJECTS

Project 1
COFFEE WEBSITE

- Developed a fully responsive website for a specialty coffee business, ensuring optimal user experience across desktop, tablet, and mobile platforms.
- Implemented a responsive layout using CSS Grid and Flexbox to ensure optimal viewing across devices.
- Integrated a JavaScript carousel for showcasing project images and for better viewing of navbar using hamburger button.
- Optimized performance through minification of CSS and JavaScript files.
